

Baby tortoise at Loose Valley Care Home

Here at Loose Valley Care Home, we've been fortunate enough to be able to have a baby tortoise and watch it hatch.

Our **Housekeeper Debbie** breeds these wonderful creatures and we welcomed this little one last Sunday. Our residents were in awe and so happy to meet them and handle them.

A couple of fun facts: *Tortoises have very small brains and have existed for over 55 million years. There is currently a tortoise who is the longest living land animal at 190 years old!*
