

Experimenting with resin art at Loose Valley Care Home

This week at Loose Valley Care Home we tried our hands at a touch of resin art.

We used **epoxy resin and some rubber moulds** to create some **beautiful bookmarks**. We poured the mixture in and then our residents chose some **pretty beads and glitter** to decorate them; the beads and glitter sink into the wet mixture which is then left to harden over a day or two.

When completely hardened, the epoxy looks like clear glass and we think they came out fantastically well!! *We had a lot of fun making them, with lots of laughs and are delighted with the results.*
