

## **Gardening Club is a success at Loose Valley Care Home**

**We treated our residents at Loose Valley Care Home to a lovely gardening event on Wednesday 12 May – an activity that we hope to make permanent, as a featured club at our Home.**

**Gardening Club** was a huge success and our residents were more than happy to get stuck into digging holes in the mud for **potted plants**, and mashing up foods to make **fat cakes for the birds**.

Needless to say, the birds in **Loose Valley's** back garden won't want for more this summer!

Everyone enjoyed chatting over a little tippie, whilst they made sure our new plants were safe in their beds.

Some of our residents have expressed an interest in cultivating a **vegetable garden** for future Gardening Club activities, so watch this space!

*Fun was had by all and long may it continue!*
