

## **Loose Valley Care Home residents take a trip to Herne Bay**

**This week we were able to take a group of our Loose Valley Care Home residents down to Herne Bay seafront; it was a gorgeous day with a bit of a breeze, so we made sure everyone had their coats at the ready!**

We took a **stroll along the front to a coffee shop**. Bob got an almighty surprise when he ordered a **waffle** as a '*little*' snack and a gigantic plate turned up!

We then went **along to the pier**. Debbie our Head Housekeeper came along as an extra pair of hands and went searching for a cuttlefish on the beach to take back to her turtles to enjoy at home. We walked along the pier and did a **spot of shopping**. Our resident Ada had her daughter and granddaughter with her and they found a beautiful handbag and purse to buy for her upcoming birthday.

Later, we wandered back down the seafront and made our way into a **fish and chip shop**. Everyone had fresh fish and chips (*in humungous portions!*) and left feeling very full and happy.

***What a great day!***
