

Loose Valley Care Home residents visit Leeds Castle

Last week, we took a group of residents from Loose Valley Care Home to visit Leeds Castle. Most of us hadn't been to the castle for many years and we were overwhelmed by the sheer size and beauty of its grounds.

We were very lucky to enjoy a special tour of the castle, arranged by the staff, and we learnt a lot about its history.

We took a leisurely stroll around the grounds, soaking in the amazing views of the gardens and feeding the adorable baby geese and swans.

We are very much looking forward to going back again, as we didn't manage to cover all of the grounds!
