

New feathered friends at Loose Valley Care Home

We are very lucky to be surrounded by scenic views and wildlife at Loose Valley Care Home.

We are also fortunate to have a lovely family of pets to look after including **chickens, rabbits** and **Guinea Pigs**.

Our newest additions are some **gorgeous little chicks** that our residents love! They have been enjoying **Pet Therapy** sessions with them, spending time holding them and enjoying their company.

We have all been reminiscing about work and home life involving animals, with lots of interesting stories whilst enjoying chick snuggles!

Pets bring such a lot of joy
